All the apps & games here are for home or personal use only. If any apk download infringes your copyright, please contact us. Avira Phantom Vpn: Fast VPN is the property and trademark from the developer AVIRA. Privacy: The reality is that you are tracked all over the internet by software that analyzes what you do - to show you relevant ads, for example - and by bad guys who want to exploit you. Their goal is to collect your personal data. Avira Phantom Vpn enables you to safely and anonymously browse the Internet, keeping your personal data secure. Wi-Fi security: When you connect to the internet via an unsecured network, such as a public hotspot, the bad guys can see what you are doing and the data you exchange between friends, social networks, online shops, and banking websites. Avira Phantom Vpn prevents the bad guys from seeing these exchanges. Free Internet: Countries have borders and sometimes on the Internet too. This means some news channels, social media, and video streaming websites cannot be accessed from certain regions and countries. Avira Phantom Vpn enables you to access these websites easily by bypassing the borders. And the best bit: Use it on all your devices. Show More
